Dear Sir/Madam,

Hope this letter finds you well. I would like to take this opportunity to introduce myself as a professional in the software industry with over 2 years of experience in the development and research domain. I am graduating in June 2021 from the ADCET, pursuing a Bachelor's in Science in Computer Science with an excellent academic record. I am looking for full-time permanent positions with an esteemed organization that allows me to employ my abilities to meet company vision and mission.

My curriculum comprised of courses like Data Structures & Analysis of Algorithms, Database System Design, Mobile Application Development, Internet Application Design and Development, Human-Computer Interaction, Computer Organizations, Programming Methodology, and design of User Interface has assisted me to gain profound knowledge in the field of Computer Science. These are the fields of my interest as well.

Adapting to various work cultures, identifying bottlenecks, and prioritizing have been the striking feature of my working style. In addition to the above, I strongly believe in learning and sharing my knowledge with colleagues. Moreover, I stand to the point that an organization or team can grow with all players working together. I am keen on learning and adapting new technologies to sharpen my skills at troubleshooting and solving problems.

I am confident that my background and knowledge in the Computer Science area along with my strong technical skills and work ethics will prove an important and immediate value to your organization.

I have enclosed my resume and would appreciate an opportunity to talk with you. Should you have any further concerns or questions, please feel free to contact me. I look forward to hearing from you soon.

Cordially,

Ravikumar Lubdhi
